

Vision 3 Release DLM 860

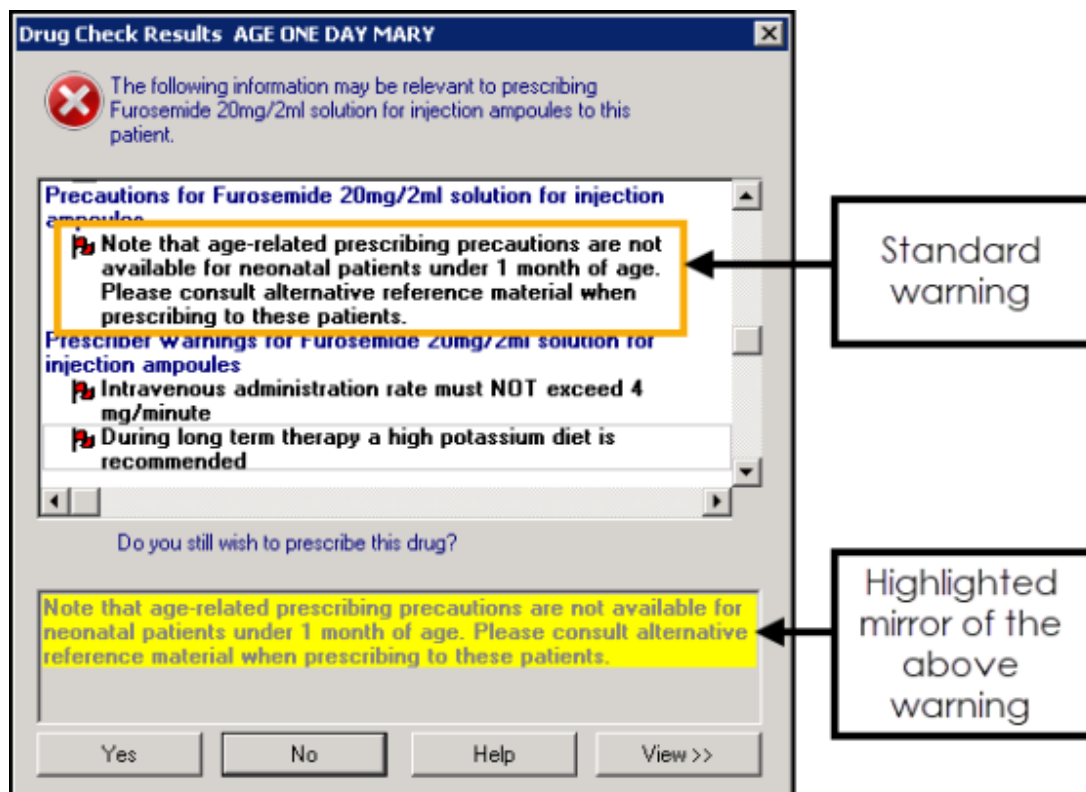

Summary of Changes

Vision 3 release **DLM 860** contains the following features and improvements:

All Countries

Consultation Manager

- Age-related Prescribing Precautions** - When prescribing for patients under one month old, age-related prescribing precautions do not display. To remind you to check for precautions elsewhere a new message displays in the comments section of the **Drug Check Results** screen mirroring the warning that displays in the top half:

- Immunisations:**
 - SmallPox** - The existing clinical term for the stage one Smallpox vaccination is updated to Local code **6590.00 Administration of first dose of smallpox vaccine**.
 - Covid** - All age, predefined interval and **Next Stage** values are removed for all Covid vaccinations at all stages.

England, Wales and Northern Ireland

Consultation Manager

- **Creating an Acute prescription from a Repeat** - The **Floating Drop Target** is updated to recognise the type of prescription issue you are

dropping on to **Prescription** . You can now drag and drop the following:

- **Repeat issue**, to create a one off acute prescription retaining the same details as the repeat issue you are copying, or
- **Acute issue**, to create a repeat master retaining the same details as the repeat issue you are copying:

England and Wales

Primary Care Registration Management (PCRM) aspects of **Vision 3** are updated for England and Wales. This has the following impact:

Registration

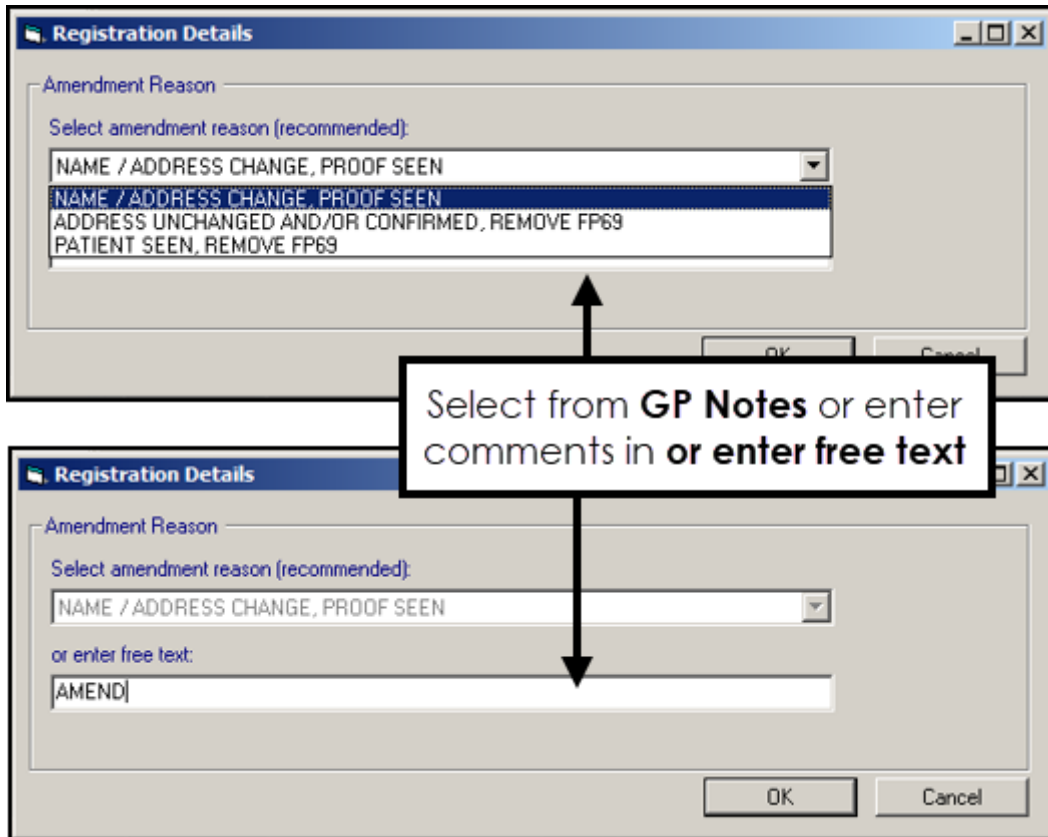

- **GP Notes** - When you register a new patient, the **GP Notes** section now has a list to select from, or you can enter free text:

The image shows two screenshots of the 'Registration - General' dialog box. The top screenshot shows the 'GP Notes' dropdown menu with three options: 'PROOF OF IDENTIFICATION / ADDRESS SEEN', 'PROOF OF IDENTIFICATION / ADDRESS SEEN', and 'REGISTRATION UNDER OUT OF AREA SCHEME'. An arrow points from a text box to the dropdown. The bottom screenshot shows the dropdown menu with 'REGISTRATION UNDER OUT OF AREA SCHEME' selected and 'TESTING' entered in the 'or enter free text' field. An arrow points from the text box to the text input field.

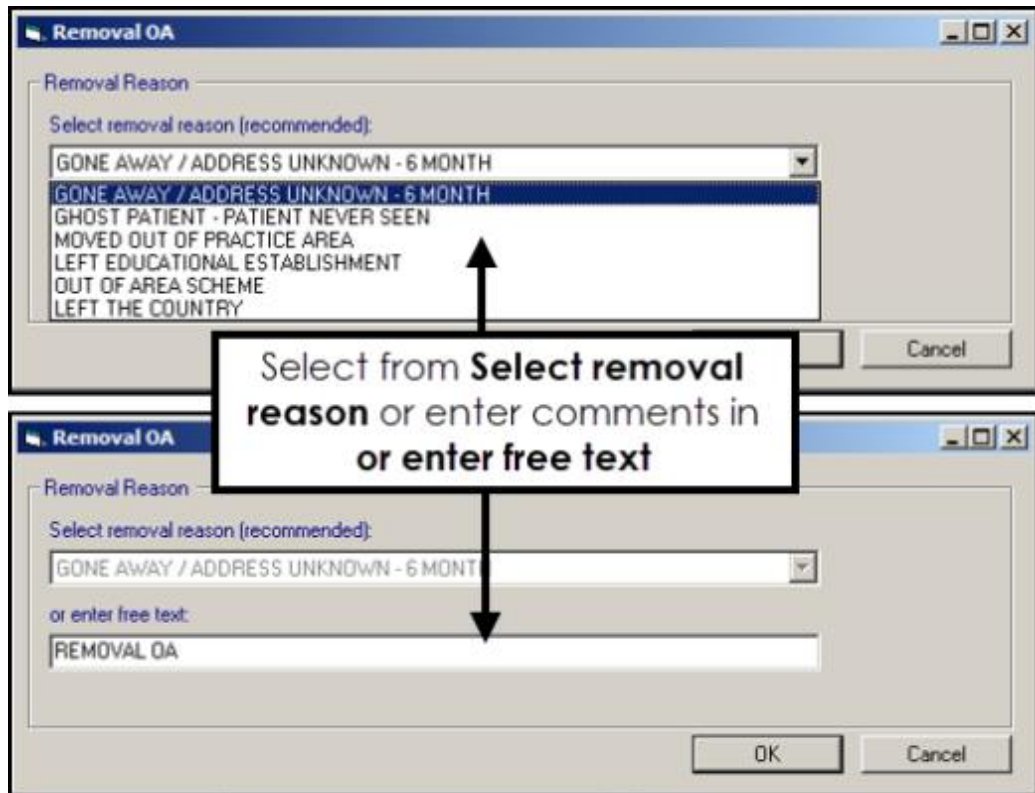

- **Previous Agency** - The following options are now available for selection from the **Previous Agency** list:
 - England
 - Wales
 - Isle of Man
 - Scotland
 - Northern Ireland
 - Ministry of Justice
 - Defence Services

- **Amendments Reason** - When you update a patient name or address the **Amendment Reason** now has a list to select from, or enter comments in **or enter free text**:

Registration Links

- **Quarterly Archive** - You no longer receive a request to run a **Quarterly Archive**.
- **Deductions** - When you are processing a deduction from **Registration Links**, you can select from the available list, or enter comments in **or enter free text**:

Control Panel

- **Residential Institutes (RI)** - The **Identifier Value** for all RIs must now be updated to:
 - **V0** for Nursing/Residential Care Homes.
 - **Y0** for Students.

This change must be done manually at your earliest convenience.

To make the change:

1. From **Control Panel**, select **File Maintenance - Organisation** and highlight one of your RIs.

2. Select **Edit**.
3. Select the **Identifiers** tab.
4. Update the **Identifier Value** to either **V0** or **Y0** depending on the RI type.
5. Select **OK** to save.

England Only

- **Clinical Practice Research Datalink (CPRD)** - Where a patient has chosen to not share their confidential information for research and planning purposes via the **National Data Opt-out Service**, their data is no longer included in a **CPRD** data collection.

See [National Data Opt-out Service](#) in the **Search and Reports** Help Centre for further details.

Scotland Only

Consultation Manager

- **Chronic Medication Service (CMS) Therapy Reorder form** - When you issue a **CMS** prescription, the **Reorder** form now prints by default.

Training Tip - To stop this from printing, in **Prescription Manager** you must remember to remove the tick from **Print Reorder Form**, see [Prescription Manager Functions in the Consultation Manager Help Centre](#) for details.

- **Instalment Prescribing** - You can now print a **Medication Schedule** for a patient on an instalment plan.
 1. From **Consultation Manager**, with the patient selected, press **F9** on your keyboard and **Prescription Manager** displays:

2. Tick **Print Instalment Plan** and then :

Plan Header - Medication Schedule

Training Tip - The **Medication Schedule** print out can be multiple pages long.

Northern Ireland only

Control Panel

- **Exchange Web Services** - This release updates **Exchange Web Services** in Northern Ireland to prevent messaging issues. This adds all available pathology providers and the out of hours service within Northern Ireland as new trading partners.
