SNOMED CT Updates and New Vision Local Codes – Version 40.2 Release

This guide outlines the updates included in **Version 40.2** release of the **SNOMED CT** dictionary and Vision Local Codes.

In **Vision 3**, all clinical data is dual-coded, entered using Read codes and automatically mapped to **SNOMED CT** in the background. However, some new **SNOMED CT** terms do not have a direct Read code match.

Note - These newer terms can be recorded in Vision Anywhere, which is fully **SNOMED CT** compliant.

To support this, **INPS** regularly create and release **Vision Local Codes** (in Read code format) so you can record and report on these new clinical terms in **Vision 3**.

Need help?

For more information, see the **SNOMED CT in Vision FAQs** or visit the **NHS Digital SNOMED CT Browser**. You can also explore **snomed.org** for general guidance and training resources.

New Vision Local Codes Released – v40.2

SNOMED CT Code	Description	Vision Local Code	Keyword(s)
921000119109	Vaccine declined by parent	`8IHX.00`	VACCDECL
1403151000000103	On palliative care register	`9NgI.00`	PALLIATIVE
419733004	Patient notified	`9G0..00`	NOTIFIED
735541006	Functional neurological disorder	`FyuAI00`	FND
2489381000000106	Lung health check	`68f..00`	LUNGCHECK
2489333l000000107	Signposting to befriending group	`8Hkje00`	SIGNPOST
2489151000000102	Signposting to dental service resource	`8Hkjf00`	SIGNPOST
