

Pharmacy Manager Release 14.9

Pharmacy Manager 14.9 introduces the following feature:

England Only

- **CPCS Form Type** - Community Pharmacist Consultation Service (CPCS) now has its own form type to allow you to seamlessly dispense any referrals received into **Pharmacy Manager**. Please be aware that due to the urgent nature of these supplies, if you do not have the required items in stock, you cannot create an owing. In these cases direct the referral to another pharmacy.

This release also includes background fixes and improvements to **Pharmacy Manager**.
