ADD MEDICATION

- **Urgent Medicines Supply Referral - GP Notification** - When completing an **Urgent Medicines Supply** referral a GP Notification is sent electronically via **Fast Healthcare Interoperability Resources (FHIR)**. If a referral is not accepted by a GP practice, an email is now sent to your store advising a GP Notification has been rejected by a patient's GP practice:

You must download the consultation summary to a PDF (printable) version and send it manually to the patient's correct GP practice after confirming the correct details with the patient.
