

## Pharmacy Services Release 2.2

**Pharmacy Services** release **2.2** contains the following new features and improvements:

### All Services

- **Pharmacy Intelligence Hub Integration** - Episode ID codes now display in a new **ID** column on all of the **Pharmacy Services** overview screens. Matching episode ID codes display in **Pharmacy Intelligence Hub**, meaning that you can easily identify episodes and communicate them between your pharmacy, Head Office and Service Desk without having to disclose any confidential patient information:

**CPCS Referrals**

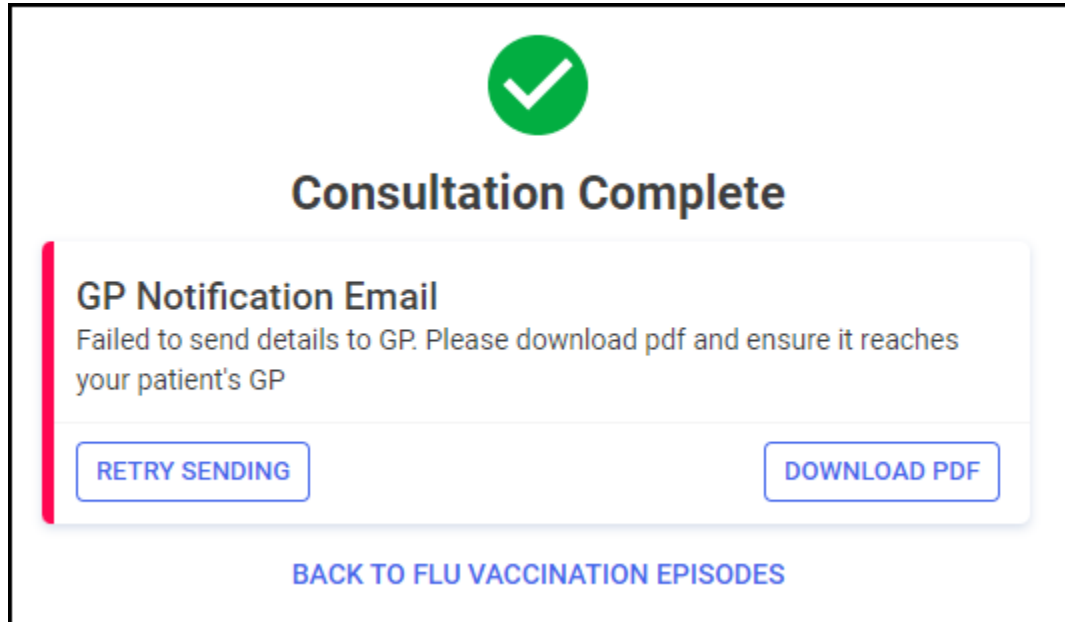

Referrals **5** Completed

Search FILTER

ID	Patient Name	Postcode
CPCS-7669	Andre Cymone	PR12 8GK
CPCS-7668	Eric Leeds	PR5 8AU
CPCS-7667	Wendy Melvoin	PR7 9BF
CPCS-7666	Brenda Bennett	BB3 1PY

➔ See the [Pharmacy Intelligence Hub Help Centre](#) for more information (opens in a new window).

- **GP Notification** - If a GP Notification fails to send to the patient's registered GP, **RETRY SENDING**  displays so you can attempt to resend it electronically:

---

 **Important** - If a GP Notification fails to send electronically, you must securely send a PDF (printable) version of the report to the patient's registered GP, for example, via NHSmail or post.

---

## Flu Vaccination Service

- **Adding a New Patient** - A Patient Demographics Service (PDS) lookup is now performed to automatically retrieve the patient's NHS number when adding a new patient in **Pharmacy Services**. If a PDS lookup is not successful, an NHS number cannot be verified and does not display on the patient banner.

---

 **Note** - The NHS Number section has been removed from the **Add New Patient** screen as you can no longer add an NHS number manually.

---

- **MYS Portal** - NHS **Flu Vaccination** claims are now automatically submitted to the Manage Your Service (MYS) Portal.

This release also includes some background fixes and improvements to **Pharmacy Services**.
