

## Pharmacy Services Release 3.1

**Pharmacy Services** release **3.1** contains the following new features and improvements:

**i** **Important - New Medicine Service (NMS)** is included in **Pharmacy Services** release **3.0** as part of a phased rollout, which means it isn't available immediately for all pharmacies. You will receive further information about this functionality when it is available to your organisation.

- **GP Details** - You can now add, edit or delete a patient's GP details from the **Patient Details** section of an **NMS** or **Flu Vaccination** episode:
  - **Add** - Select **ADD GP PRACTICE**  if the patient's GP details are missing:
