

Pharmacy Services Release 5.5

Summary of Changes

Pharmacy Services release **5.5** contains background and stabilisation changes, but does not change the look or how you use **Pharmacy Services**.

We are working hard to improve the infrastructure and security of **Pharmacy Services** and are continuing to work alongside the NHS to meet the requirements of the **Primary Care Access Recovery Plan**. This will introduce new features such as read/write access to patient GP records, integrated GP **Community Pharmacist Consultation Service (CPCS)** referrals and the new **Common Conditions Service**.
