

# Pharmacy Services Release 7.1

## Summary of Changes

Pharmacy Services release 7.1 contains the following new features and improvements:

### Pharmacy First, Hypertension Case-Finding Service and Contraception Services

- **Integration with GP Connect - Update Record** - When completing a **Pharmacy First (Formerly CPCS), Hypertension Case-Finding Service** or **Contraception service**, if a patient is PDS (Patient Demographics Service) verified **PDS VERIFIED** an electronic notification is now sent to a patient's registered GP practice automatically to update the patient's GP record once accepted:

---

 **Note** - If a patient's details have not been PDS verified, service details are sent to the patient's registered GP by NHS Mail as normal.

---

---

 **Important** - Pharmacies must complete the **NHS National Data Sharing Agreement (NDSA)** to use **GP Connect** messaging. See <https://digital.nhs.uk/services/gp-connect/national-data-sharing-arrangement-for-gp-connect> for details on signing the **NDSA**, or to verify **GP Connect** usage.

---

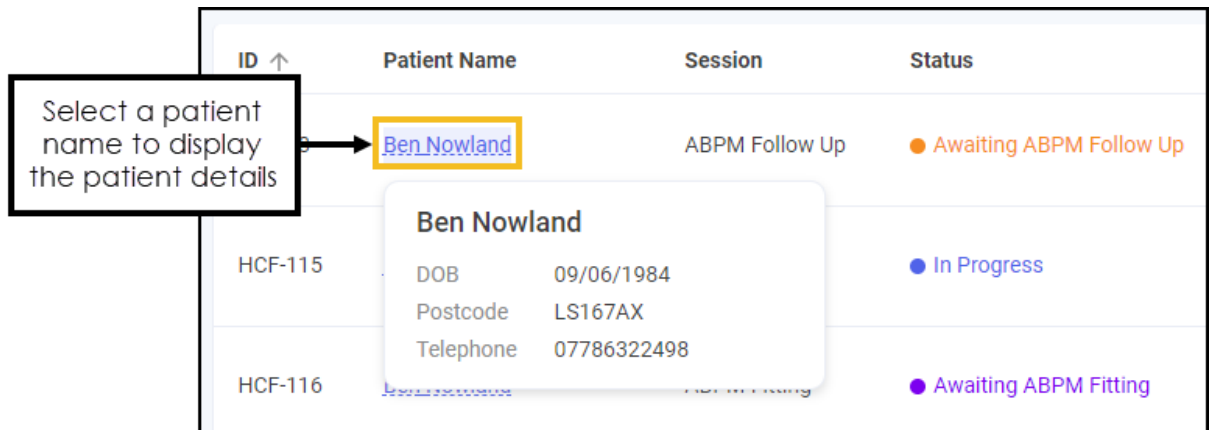

---

 See this useful guide on **GP Connect - Update Record** <https://digital.nhs.uk/services/gp-connect/gp-connect-in-your-organisation/gp-connect-update-record> for more details.

---

## Hypertension Case-Finding Service

- Patient Details Tooltip** - A tooltip now displays on the **Hypertension Case-Finding Service - Active Episodes** screen to display extra patient details. Select a patient name to display the patient's Date of Birth (DOB), Postcode and Telephone number where available:

The screenshot shows a table with columns: ID ↑, Patient Name, Session, and Status. A tooltip is displayed over the 'Ben Nowland' entry, showing his personal details.

ID ↑	Patient Name	Session	Status
	<a href="#">Ben Nowland</a>	ABPM Follow Up	● Awaiting ABPM Follow Up
HCF-115	Ben Nowland DOB 09/06/1984 Postcode LS167AX Telephone 07786322498		● In Progress
HCF-116	<a href="#">Ben Nowland</a>	ABPM Fitting	● Awaiting ABPM Fitting

This release also includes some minor Manage Your Service (MYS) defect fixes to reduce the number of claim failures requiring manual intervention.
