

# Pharmacy Services Release 8.1

## Summary of Changes

Pharmacy Services release 8.1 contains the following new improvement:

### New Medicine Service (NMS)

- **Method of Consultation - Pharmacist Location** - For engagement, intervention, or follow-up sessions delivered over the phone or video, you must now select a **Pharmacist Location** as either **In branch** or **Remote**.

The screenshot shows a form with two sections. The first section, 'Method of Consultation', has four radio button options: 'Face to face in the pharmacy', 'Face to face in the patient's home', 'Telephone', and 'Telemedicine (Video Call)'. The 'Telephone' option is selected and highlighted with a yellow box. The second section, 'Pharmacist Location', has two radio button options: 'In branch' and 'Remote'. The 'In branch' option is selected and highlighted with a yellow box.

---

 **Note - Pharmacist Location** details are recorded in the session summary, see [Viewing NMS Episodes](#) for details.

---

This release also includes some background fixes and improvements to **Pharmacy Services**.
