

## Tango Release 2.37

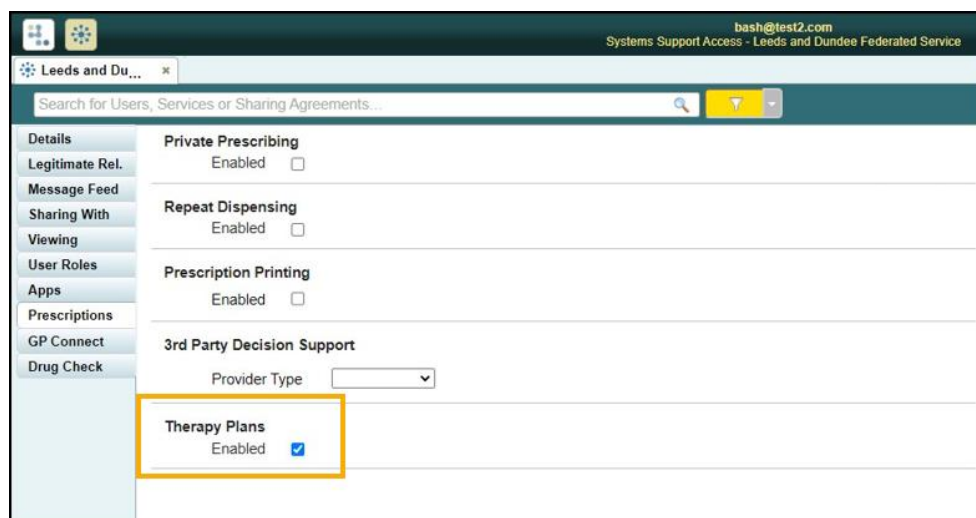

September 2022

Tango release **2.37** release contains the following new features and improvements:

- **Therapy Plans** - To support the creation of **Therapy Plans** in **Vision Anywhere**, you can now enable **Therapy Plans** within **Organisational Services**.

To enable **Therapy Plans**:

1. Log in to **Vision360** as a System Administrator and select **Organisational Services**.
2. If necessary, select the **Service** required and then select the **Prescriptions** tab.
3. Tick **Therapy Plans**:

4. Select **Save** to save your changes, or **Revert** to cancel them.

- **Repeat Dispensing** - The wording within the **Prescriptions** tab is updated to match the wording in **Vision Anywhere** and is now measured in days:

The screenshot shows a web application interface for user management. The top navigation bar includes the user's email 'bash@test2.com' and the text 'Systems Support Access - Leeds and Dundee Federated Service'. Below this is a search bar with the placeholder text 'Search for Users, Services or Sharing Agreements...'. A left-hand sidebar contains a list of menu items: Details, Legitimate Rel., Message Feed, Sharing With, Viewing, User Roles, Apps, Prescriptions, GP Connect, and Drug Check. The main content area displays settings for a user. The 'Repeat Dispensing' section is highlighted with a yellow border and contains the following options: 'Private Prescribing' (Enabled ) and 'Repeat Dispensing' (Enabled ) with a 'Warning Days' input field set to '21' and a 'Days' label. Other sections include 'Prescription Printing' (Enabled ) and '3rd Party Decision Support' (Provider Type dropdown menu). The 'Therapy Plans' section is also visible with 'Enabled' .

This release also includes other background and stabilisation changes.
