

# Vision Anywhere v3.8 for iOS Release Guide

### **Summary of Changes**

#### October 2020

**Vision Anywhere** for iOS release v3.8 contains the following new features and improvements:

- Medication Reviews You can now view all existing Medication Reviews, see <u>Medication Reviews</u> for details.
- **Death Administration** You can now view all death administration information in one screen, see <u>Death Administration</u> for details.
- Medication Decision Support You can now chose to enter a reason when you override any decision support warning on either an acute, a new repeat or a reauthorisation of an existing repeat

medication. When you select **Continue** on a medication with decision support warnings, the **Decision Support Summary** screen displays:

:46 Wed 23 S	ep	중 78% ■	
Prescribe	Decision Support	<u>نې</u>	
÷	Major drug interaction 11-Apr-2020 - Tramadol 100mg/ml oral drops		
AE	Precaution Hyponatraemia		
<b>A</b> =:	Precaution Cardiac disease		
AE	Precaution Decompensated heart failure		
Preca	ution Patient from 18 to 25 years old		
If card malig	liovascular symptoms develop, cardiac evaluation and ECG should be undertaken to exclude nant cardiac arrhythmia.		
Withd	raw gradually.		
Hypor whilst	natraemia should be considered in all patients who develop drowsiness, confusion or convulsion taking an antidepressant.	S	
Patier	ts (and caregivers of patients) should be advised to seek medical advice should signs of suicida	al	
lacati	ar or benaviour emerge.		
Clinically a	ppropriate.		
	Prescribe	_	

You can enter any comments required in the section under the warnings. Audit information for overrides is held in the V360 Clinical Portal Audit Viewer, see the Audit Viewer help for details.

### **Medication Reviews**

In order to maximise the effect of treatment(s) prescribed, a patient's active medication should be reviewed on a regular basis. A medication review can be carried out either with or without the patient present.

To view the details of a due or overdue **Medication Review** from the patient record either:

• From Search the patient record , enter 'med review' and select Medication Review record entries from the search results:

DR PETER POWYS	Cardiff 📀
EDANOE Not (Mo)	
Q. Dea	S Cancel
RECORDS	2
Death Administration record entries	
Record entries about 'Dea'	1

• From the patient record, select **Browser** and scroll through the records returned to locate the **Medication review** required:

1

< Search	Clinical Record Browser		Q
