

Pharmacy Intelligence Hub Release 6.4

Summary of Changes

Pharmacy Intelligence Hub release 6.4 includes the following improvements:

England only

- **Services Store Performance** - The **Services Store Performance** report is updated to reflect the Community Pharmacy Contractual Framework (CPCF) fee changes from 1st April 2025.

The following updated fees are now live in **Pharmacy Intelligence Hub**:

- **Pharmacy Contraception Service** - £25 for both initiation and continuation supplies.
- **Pharmacy First Minor Illness** - £17.
- **Pharmacy First Clinical Pathways** - £17.
- **New Medicine Service** - £14 for an intervention consultation, plus £14 for a follow up consultation.
- **Hypertension Case Finding Service** - A Blood pressure check £10 and ambulatory blood pressure monitoring (ABPM) £50.85.

Note - We have prioritised this report to ensure you are fully supported as you complete your first Manage Your Service (MYS) submission under the new fee structure. Updates to the remaining reports will follow shortly in the coming weeks.

For more details on the CPCF changes, see [Community Pharmacy Contractual Framework: 2024 to 2025 and 2025 to 2026](#).

This release also includes some background fixes and improvements to
Pharmacy Intelligence Hub.
